THE FOOT RACE—SHULTZ FALLS DOWN AND NOBODY WINS-BIG BETTING BUT NO MONEY Lost.—The topic of couversation yesterday, among those not in the habit of attending church, was the result of the foot race between like Shultz, of Louisville, and Pack Avres, of Owen Co., which took place sixteen miles back of War saw on Saturday. Three hundred persons went there, excepting five or slx thousand Democrats who will vote for John C. Breckinridge in No vember. Shultz had the call in heiting, and many of his backers gave eight feet hi the hundred yards. A large amount of money was wa-gered on the result. One Lonisvilian bet \$50 against a horse, and made arrangements for a he that Shultz would win. At the termination

the affair he "eaved in." The race commenced with Shultz bounding off with the lead. He gained for the first fifty yards and was alread at that point about twelve feet. Avers went no on him slowly, but couldn't hlm. Just before reaching the goal Shultz made a mi-slep, as any respectable ma ed on the earth face forward, and, as his friendelaim, beyond the judges. At the time of the aceldent, he was several feet shead; but it led to a squabble and the stakes were elaimed by both partles, and neither got them. The matter is still in abeyance and will probably lead to another

American, who was present and heard the discussion, writes homeas follows to his paper:
Lastinight Hon. J. Y. Brown, Douglastie, made a speech in the usual Opposition style, a labored effort, and a special plea for Douglas, of about two hours. Mr. W. C. P. Breckinridge, rom of Dr. R. J. Breckinridge, replied to him in his maiden political speech, and it was an effort of which an older and more experienced speaker night well have been proud. When told that he took the wind all out of the sails of Brown, you don't get the full idea. He literally downed him—he floored him—he gained a most signal victory over thin, and Brown seemed to feel and writhen under it, notwithstanding he had nil the Douglas-Bell hollowers to back him, and bolster up his tailing harrels. If the boys of Kennicky can all make such able and withering, telling speeches as the young Breckinridge made last night, we say, wo' to the Opposition man, he he Douglas, Bell or Lincolnite, that meets them in debate. He dealt in facts, in an able and convincing argument that vanished all mere decharation and declanation. He felt and spoke as one armed in the panoply of truth and instice, and he had decidely the advantage over his opponent, though Brown has more experience. ENCAMPMENT OF THE STATE GUARD.—In reference to this, the Lexington Statesanm says: We are informed that it is proposed and desired to hold a general encampment of the Kentucky State Guard for drill, at or near this city, at some convenient time during the month of November. The Directors of the Agricultural Association have kindly tendered to Gen. Buckner the use of the Fair Grounds for the purpose, and steps are now being taken to carry the movement into successful execution. It will be remembered that the late Rendezvons at Camp Boon was originally designed for none others than the commissioned officers, who were ordered to report them selves at that place for theoretic and practical instruction in the tactics. The companies were invited and quite a respectable battalion dld assemble. As the Hon J dan L Helm has publicay as

They were not willing to act with bim as Pres-dent last year, and are not willing now. They to not deen it necessary to restate the reasons shieh governed them then, I nit regard it proper to state to the stockholders that those reasons e still in force, with others of grave magni At that time they stated to the stockholders

At that time they stated to the stockholders their responsibilities for the Company, and those they had agreed to incer for the Memphis branch, and that they would retire if the stockholders desired it, and surrender the management to fow. Helm and a new Board of Directors, but that the Governer and a new Board should assume their responsibilities, and construct the branch by carrying out the arrangements they had made for that purpose.

Gov. Helm asserted at the time, in a card published by him, that he could form a Board, but was not willing to involve his friends in liabilities to the required extent, and withdrew from the Presidency.

The Louisville Directory have maintained the credit of the Company and incurred the expected liabilities for the Memphis branch—completed its construction—put it in operation, thus increasing their liabilities, and also the expected to the coal for probable business.—They were induced to continue as Directors and assume additional responsibilities in order to expedite amenterprise of such vital importance to the city of Louisville and State of Kentucky.

They had not then and have not now any interests in the road which are not common to other stockholders and the citizens of Louisville. They do not desire the position of Directors in the road except to promote its interest, and protectible credit of the company and their own credit as connected with its liaddities; but after what they have done they do not wish to be dismissed as incompetent or unfaithful to the trust which has been confided to them.

It is evident that when Gov. Helm resigned the Presidency, last February, it was with a fixed determination to renew the contest for the Presidency, and the removal of the Louisville members of the Board at the coming October election. It has ever since been known along the route of theroad, and smong the employees of the company, and his friends have repeatedly declared their confidence in his success, and that every one of the Louisville members would be removed.

The accidents and delays that have occurred

that every one of the Louisville members would be rentoved.

The accidents and delays that have occurred on the road have been misstated and magnified, and as the election approaches, charges of rulsmanagement, misconduct, and Incapacity are frequently made, both In and out of the press, and referred to as coming from subordinate employees of the company.

The Louisville members of the Board have been charged with a design of so managing the road as to throw it that the hands of the bondholders, with intinations that, with this in view, the Directors had purchased and held largely of the seenrities of the company. This charge is altogether untrue, mallguant, and slanderous.

largely of the securities of the company. This charge is altogether intrue, mallguant, and slanderons.

The Directors purchased no bonds but those sold to meet argent demands for money to pay the debts of the company, and expedite the work; and only when they could not make sales to others; and none at a less price than that at which they were offered to others without sale.

The Louisville Directors now hold less than two hundred thousand dollars of the securities of the Company, and those were not purchased for speculation nor investment, but to promote and expedite the construction of the road.—They now find that everything done by them in the purchase of bonds and raising money for the prosecution of the work, and the payment of its debts, is placed to sinister designs.

It seems impossible for somefriends of Gov. Ilclin to conceive that these purchases could have been made, and liabilities incurred by the Directory, without the vile Intention of seeming the road for their own benefit by the means of these bonds and debts.

In March last, the Directors passed resolutions in favor of establishing a sinking fund out of the carmings of the road satheien to pay the Interest and principal of the debts of the company, in the course of thirty years, and published the same, with certain estimates of the earnings of the road, for the information of the stockholders, and stated that they would be laid before them at the October meeting, thus proposing the only policy which would certainly meet the bonds of the Company at maturity, and preserve the road to the stockholders.

After the publication of these resolutions, the attack of those wishing the removal of Louisville members of the Board was changed, the purport of the estimates misstated, and the Directory charged with a design to depreciate the stock and purchase it, and thus become the owners of the road: This imputation was directly contradictory to the first mentioned, but could be anderous.

Of the Louisville members of the Board, but

The estimates the directors published in conection with the proposed sinking fund, were
many given as estimates, and every stockholder

stockholders; but in no event could such esti-mates change results.

Another charge against the management of the road, is the high salaries of some of the em-ployees—there has been no salary increased since Gov. Helm resigned the Presidency, and those were fixed with the sanction of his votes; yet it is expected the Governor on re-election will reduce the salaries and introduce greater economy to the management.

The Louisville Directors have had the man-

are in favor of employing competent men who give their whole time to the duties of the Company, and of paying them fair compensation for their services, and of dismissing them when they fall to discharge their duties properly, and keeping no supernumerarles.

Another complaint is, that the countles have no voice in the management. The State of Tennessee has three directors, two are appointed by the Governor of that State, and one of those elected by the stockholders is required by the Charter to reside in Tennessee, leaving but six for the State of Kentucky. The necessity of having a sufficient unmber in Louisville to form a Board at any time, has been the cause of the election of the remaining six in Louisville.

The present arrangement of the Board was made with the sanction and advice of Governor Helm himself, and it is remarkable that he never found it objectionable until In want of votes for the Presidency.

It is understood he now proposes the election of at least two from the counties, under the expectation that the Tennessee members and the commy members will elect him Presideut.

The Louisville members do not care where the Directors reside, so that prompt meetings of the Board cau be had in emergencies, and that the credit of the Company.

Whilst the road was being constructed, it was convenient to have a majority of the Board residents of Louisville, and the present members may have been selected because of this, and of their willingness to lend their eredit to the road, and it may prove convenient to continue this arrangement until the road is fully complete

ldents of Louisville, and the present members may have been selected because of this, and of their willinguess to lend their credit to the road, and it may prove convenient to continue this arrangement until the road is fully complete and the floating debt discharged.

The imputation intempted to be east upon the integrity of the Louisville members by interested partles, and the dissatisfaction of many persons in Nashville, because of the construction of the Memphis Branch, which they believe prejudicial to the interest of that city, is calculated to induce a combination to take the management from Louisville and place it in other hands; and these renewed and repeated charges of mismanagement, misconduct, and incapacity are, no doubt, made for that purpose.

We are satisfied these charges of mismanagement and incapacity are without any foundation. That the Superintendent is a practical, energetic, and skillful operator of a railroad; and that the business of the road is being well conducted, and to the full capacity of the equipment, and the subordinate places being filled with capable men. We have been able to manage our own business, with fair success and have been brought in contact with practical capacity of their Superintendent, and those whose services he is brunging to his nid, and feel assured complaints will cease as soon as the stockholders is hall have met and disposed of the election.

The officers of the Company are now preparing the account of the caming and will submit to them an account of the liabilities of the Company, and an estimate of the cost of completing the road, and the amount for which they are responsible ludividually, now amounts to more than £250,000.

Letters Low, we've Course: Last evening the Hon. R. W. Thompson, of Terre Haue, made an address toom citizens on the political topics now agitating the public mind. Your city papers had a notice of the meeting, but it was accorapanied with no thourish of trumpets, consequently we saw but few of the Bell men of Loulsville at the meeting. It they had baen here they would have heard some things that would have afforded them food for thoughs. The speech of Mr. Thompson was very long, somewhat rambling, and at times exceedingly eloquent. He is unquestionably the best atmin speaker and the aliest man the Bell-Everest party have in their ranks. Thompson is evidently a Bell man from principle—a real old line Way—and he very clearly gave the fusion men to understand that he was not in the market for sale.

In the exhibitiou y esterday there was a glorious display of horse stock. The gelding rung was very large and attractive. Mr. Coston, a Woodford county, was the snecessful consestant in this superbring. There were, however, many magnificent specimens of the equine race from this section of the State and Tenuessee. They could not, however, compete with the representatives of the Blue Griss region.

One of the great features of the day has been the review by Gov. Magoffin, of the Light Infantry Company of the 6th Regiment of Kentneky. This corps was organized several years since, and although prior to the existence of the Kentneky State Guard, has been mastered into the service lesconmander is Capt. His men are half-way giants, and dressed intheir forces carlet uniform, in tony attractational produces have the Tournament, in which fo to inderstand that he was not in the narket for sale.

The first part of Mr. Thompson's speech was devoted chiefly to an examination and vindication, tirst of himself and his politicul course, and secondly of the principles and policy of the old Whig party. He claims that that party was the party of patriotism and conservatism and shill the party of patriotism and conservatism and shill the party of perogress, and, moreover, that he would not consent to be tied to the coat tail of Mr. Donglas, or the Donglas party, at the dictation of the politicisms of Kennucky or the politicisms of New York. "I went to Baltimore," said Mr. Thompsou, "to take part in the nomination of a candidate for the Presidency, Intending to stand by the nomination whom made in good faith. The history of the Lecompton controversy and the position of Stephen A. Senator Donglas professed to behold in the adoption of that Constitution by Congress a violation of his theory of Popular Sovereignty, and opposed it with an extresiness and vehemence which, at the time, placed his sincerity above suspicion, and his consistency beyond a doubt.

Such la his public record; but there is a searct one—one known to but tew—which rends asunder the finisty vail of seeming sincerity and consistency, in which he clothed his unworthy situs, and which forever danns him in the estimation of every honeat man. But, be this as it ay, neither Mr. YANCEY nor the Alabama deleion preferred the nomination of Mr. Burckamoz. While they cared but little about tien, and were, as true men always are, ready to take any honest man on a sound platform, their first choice for President was Mr. HENTER of Virginia; and ln the convention by which BRECKINRIDGE and LANE were nominated, Mr WARD, of Alabama, speaking for his delegation, named Mr. HUNTER as the choice of his State. the name of that distinguished statesman was afterwards withdrawn at the instance of Virginis, and BRECKINRIDGE was finally selected by a unanimons vote.

Bell and Everett in Massachusetts. Our readers have heard of Mr. LEVERETT SAL-TOXSTALL, who represents Mr. EVERETT in this canvass and has charge of the political correspondence of that distinguished gentleman, albelt e never could get some interre and to his antecedents answered by the Bell-

The Union savers held a mass meeting in solon on the night of the 5th inst., at which he mouthpiece of Mr. EVERBIT turned up as e principal orator. In the course of his speech, he declared that they were "all adverse to the institution of slavery," and paid a high compilment to the anti-slaveryism of Jour Bell.! He sald:

He sold:

"I suppose we are all adverse to the institution of slavery; but we do not wish to Interfere
with the government of the slave states. When
are sage of Quiney was fighting for the right of
petition of auti-slavery men, John Bell was on
his wide. You find him standing firm against
the repeal of the Missouri Compromise; and for
these things the South calls him an anti-slavery
warn. That is the man for national conservative
men, a man who is opposed to Northern extremists and Southern extremists."

At the same meeting Grapes S. Harmans

At the same meeting, Gronge S. HILLIARD, nother prominent Unionist, and really a very able man, thus advocates the claims of Jon's BELL, summing up his record in a few words as follows:

tollows:

"On the other hand how is it with Mr. Bell? He has been all his life in opposition to the dominant public sentiment of the South. He is a protectionist; the South for free trade. He was in favor of the United States Bank; the South was not. He apposed the South Carolina null-fleation. He protested against the removal of the deposits. Of all the Tennessee delegation, he alone favored the reception of petitions for the abolition of slavery in the District of Columbia. He opposed the annexation of Texas. He protected against the repeal of the Missonri Comprotuise, stal resisted the Lecompton Constitution. There is no man at the Southern man with Northern principles than John Bell." Northern principles than John Bell."

The Journal repudiates Mr. Tuos. II. WATTS, JOHN BEIL's recent correspondent, and denies that he is a good and accepted Union saver though he supports the Union ticket, because he says the election of Lincoln would be good cause for secession. Mr. WATTS is too ultra Southern what does it think of Mesers, Saltonstall and HULLIARD?

5 of a corrupt arrangement between Combs and Bolling? The Enquirer is pleased with the appointment; but we do not know of one Bell paper in the State that likes the idea of putting Dick Bolling in a fat place which so many good Bell men would like to fill. It is necessary, however, to give some crumba of comfort to the Douglasites until after the election, when we think it highly probable the services of this "etannch Democrat who supports Douglas" will dispensed with. The After an experience of one year in partial up Vulcanite Base, Messrs. Fitta & Fulton are more fully prepared to Indorse its claims of superiority to everything clae as a base for Artificial Teeth. When stroduced it In Louisville they advertised it as s: That it was one half lighter than metal, more deanly, and that they were more certain of getting a perfect fit of the month. They now go further, and say that it is much stronger than sels on metal, and less liable to be lujured by accident, while the low e bringalt within the reach of all. Believing tha their efforts to give the best work at small profits will be appreciated, they have determined on a reduction of their prices. To substantiate the above they pledge themselves to replace with gold, without extra charge, any act on Vulcanite that falls in any o particular as set forth above. While our export of domestle produce has gone on steadily from year to year, until in 1859-60 it is more flown double what it was in 1852.

It is probable that ever since that date Europe has taken nearly all the gold produced in California. We know that estimates are commonly made of an annual yield \$36,000,000, which, if correct, will go to show that we retain from \$8,000,000 to \$10,000,000 of gold every year in the country. This may be so, perhaps, but any one who trice to verify the estimates will find it difficult to tignre up a production of gold equal to \$20,000,000, or over \$56,000,000. Fifty-live millions is, in our opinion, nearest the mark; and if this be the total product of California, it will be found, after allowing for species imported, and for the product of gold unless in other States than California, that the actual stock of specie in the United States has not increased since 1854.

The Dowager at Church—A "Sensation" Widow.

It may be interesting to know that the Dowager and her "glris" attended church yesterday. Laura Matilda, however, did not—she pleaded illuess in the murning, and took a long walk in the afternoon with the counter jumper. It is the private opinion of the indersigned that her illness was occasioned by an injudiclous indulgence in Congress water. It is really surprising how much that young lady's "keg" does hold. This blessed morning I saw her walk composed by away from the spring with ten glasses under her bodiec. I am quite confident that, had the same quantity of water been poured into a barrel of Laura Matilda's dimensions, it would either have overflowed or scattered lis slaves around promisenosly. It is comforting to know that the young lady is well hooped. Gastavus Adolphus was not visible during the early part of the day, but made his appearance in the afternoon, and promenaded the piazza until dark. The young man wears tightly-filling pantaloons, and evidently prides hinself on the development of his lower limbs. The admitmition extends to others, for I heard a young lady murmur to her menma, as he passed. "What a charning eaff." Had not the young lady's eyes Hake great pleasure to inform my numerous friends an pair no that I have, after so long an absence, returned against the BPE HIYE GALLERY, where I will spare in pains in again making such pictures eas all please every hody; and I would say to those who have children, or choustley wish to procure a likences, to bear In mind that In weer, or very seldom, fall, in machine such that. that I never, or very seldom, fall, in making such, Hoplug to see all my old friends and patrona, and as many new once as cossible, at my Gallery, on Main Treet, between Third and Fourth, I remain respectfully,

pantalons, and evidently prides himself on the development of his lower limbs. The admiration extends to others, for I heard a young lady nurmer to her mamma, as he passed, "What a charning call?" Hadmethe young lady's eves been directed to the vicinity of bootlegs, the remark would have possessed charming ambignity, but anatomy was so plainly indexed by her look, that the young gentleman did not feel offended. Capt. Jingles, 'ward has been rather attentive to the Dowager's youngest "girl," and vesterday accompanied the family to church; but as I detected him in the evening making love to the chambermaid in the hall, he profusely mens nothing serious. Military men are proverbially gallant.

The number of our guests has been increased by the arrival of a young widow—i. e., a widow by courtesy, for it was a lover she lost, and not a husband. Her life has been an eventual, and yet not an uncommou one. I will give it to you as it was given to me, not by common report, but by the hips of one who has known her from childhood. Perhaps you will recognize the lady, for since she became possessed of property you must have met her.

Madam Montford—I give the full name, for I hate blanks—was born in one of the Sonthwestern States. Her parents were wealthy, and as a natural consequence the daughter was educated at a fashlonable boarding school. Her manners were earefully artended to and her morals would have been equally well enlitvated, but unfortunately those entrusted with the task did not tend to the idossomlug victues very judiciously. The girl gaduated at lakteen. Returning home shreetwhys has been equally well enlitvated, but unfortunately those entrusted with the task did not tend to the bis rather highly seasoned mental pabulance, the cruel parents relused their consent, and looked her up in the library, where she read the Sorrows of Werter, by Goethe, and The Maideu's Doom, hy a late writer. The Austrian presented himself beneath the window one night, with a ladder, and the young lady went North welth him on a bri With tinhon & Wheelowk,

Serions Accident.

Albany, Sept. 22.—La Monntain, the balloonist, met with a serious accident on his recent vorage from this city. He araveled thirty miles in twenty-nine minutes. In attempting to land at East Lanesboro, Mass, he was caught in a fornado and dashed against a stone wall, knocking him senseless but breaking no bones. The basket rebounded and elevated to an equal altitude with the balloon, thus clearing the wall. It was then dragged along the ground at a fearful speed, and conting in contact with a tree, stripped it of its branches and tore the net work of the balloon to ntome. It continued its course some distance, when it came in contact with a uother tree, throwing La Mountain and, causing the balloon to collapse and tearing it to atoms.

La Mountain and, causing the balloon to collapse and tearing it to atoms.

La Mountain was not conscious for near half an hour, when he was found on the top of a meanutain by some men who witnessed his perilions descent. He was very hadly hrubed and cut, but not so seriously injured as to prevent his riding to a farmer's house, where he remained twenty four hours, when he returned to Linsinburg, reaching home last night. His escape from instant death was most miraculous, as the balloon was driven along at the rate of a mile per minute when he was dashed against the stone wall. He says it was a more fearful and per-lius descent than was male when he landed in Jefferson county after his trip from St. Lonis. Zion Mueliug House, Heuderson co., Wednesday, epp. 26.
